SWIMMING POOL SAFETY REQUIRED UPGRADES (effective 01/01/2007)

TO: All Single Family Residential Remodel and Modification Permit Applicants

FROM: Paul Siegel, Building Official

RE: Correction of Pool & Spa Hazards, Assembly Bill 2977 (Mullin) Chapter 478,

Statutes of 2006 California Health and Safety Code Section 115928 (see reverse)

DATE: February 12, 2007

To eliminate safety hazards on existing pools and spas, Assembly Bill 2977 (Chapter 478, Statutes of 2006), effective January 1, 2007, requires installation of **anti-entrapment covers** whenever a building permit is issued for all remodeling or modifications at a single family home. The permit shall require that the suction outlet of the existing swimming pool, spa, or wading/toddler pool, be upgraded so as to be equipped with an anti-entrapment cover meeting current standards of the American Society for Testing and Materials (ASTM) or the American Society of Mechanical Engineers (ASME), ASME/ANSI Standard A 112.19.8. It is important to obtain the correct cover for your pool or spa and to verify the cover is properly installed.

<u>DECLARATION</u>			
The property located at	ha:	s a (check all that apply):	
☐ Swimming pool ☐ Spa ☐ Wading/tod	ddler pool Does not have a swimming pool, spa,	or wading/toddler pool	
required at the above address in conjunction required, the completed Installation Certi	a, or wading/toddler pool, I understand that an on with my permit.
