- 2. Where applicable, the "# of Demo Fixtures" will can be used to offset the "# of New Fixtures". Private = residential use, Public = commercial use, Assembly = place of gathering for civic, recreational, food consumption, etc.
- 3. "Total Project EFU" is the sum of all the "Total EFU" for each type of the fixtures.
- 4. "Capacity Charge" is determined by multiplying the "Total Project EFU" by the current capacity rate (\$ per EFU) as adopted by resolution of the Board of Water Commissioners.
- 5. "Surcharge" is determined by multiplying the "Capacity Charge" by 4.0 percent².
- 6. The sum of the "Capacity Charge" and "Surcharge" are the total fees due at the time the plumbing permit is issued.
