Overview of Beneficiaries

Client Density

	0 - 0
	1 - 50
	51 - 100
	101 - 500
	501 - 2,000

Note: This is a map of San Diego County. The first map layer is a Bing road map with relevant city names, roadways and various landmarks. The second layer is a density map in which zip code boundaries are defined by blue lines and the county line is delineated by red lines. Zip codes are shaded by client density ranges which are defined in the top right hand legend and based on Medi-Cal clients with SUD services from 07/01/2018 - 12/31/2018. The client's most current zip code found in the SanWITS encounter data is used to map beneficiary density.
