PROCEDURES FOR MOVING JOSHUA TREES

Prior to relocation of Joshua Trees, the applicant shall apply for a Joshua Tree Permit and use one of the authorized companies, listed above, to move trees. Please provide an approved copy of the Native Desert Preservation Plan with the permit application, which contains the following information:

- Tract # or PN# - name of project
- Number of trees being moved to preserve and projected date of move
- Location of the Preserve
- Procedure for permanently marking trees
- Procedure for caring for trees for next two years

Joshua trees shall be moved with the use of a large tree spade. Use of backhoes, boxing of trees, and bare root moving are unacceptable methods of moving Joshua Trees.
