

ENGINEERING DIVISION

ENGINEERING RELEASES CHECKLIST REQUIREMENTS

ROUGH GRADING RELEASE

- Rough Grade inspection release from the City's Public Works inspector for building or residential lot pads.
- Signed and sealed original compaction report from the Soil Engineer-of-Record of the project, which meets City requirements.
- Signed and sealed original soils analysis report, demonstrating soil stability for landscaping purposes.
- Signed and sealed original certification form from the Engineer-of-Record and the Soils Engineer-of-Record of the project. See City website for "Engineered Grading Consultant Statement" form:
<http://www.cityofpalmdale.org/departments/publicworks/engineering.html>
- Drainage impact fees paid in full for the project. If applicable.

FINAL GRADING RELEASE

- Final Grade inspection release from the City's Public Works inspector for the building or residential lots.
- Signed and sealed original certification form from the Engineer-of-Record of the project. See City website for "Engineered Grading Consultant Statement" form:
<http://www.cityofpalmdale.org/departments/publicworks/engineering.html>
- Submit a copy of the Landscape 'Certificate of Completion' signed by the certified irrigation auditor and City's Public Works inspector for each individual residential lot or commercial project. See City website for Landscape 'Certificate of Completion' form:
<http://www.cityofpalmdale.org/departments/publicworks/engineering.html>
