

To continue to slow the spread of COVID-19, the Marin County Health Officer has issued a new Shelter-in-Place Order ("Order") that extends the shelter in place mandate through May 31, 2020 with some modifications. Under this new Order, small construction projects may continue if Construction Safety Protocols per Appendix B-1 of the Order and additional requirements from Cal-OSHA are followed.

In order to verify that all construction projects within the City of Belvedere are complying with the regulations set forth in the revised Marin County Health Services Shelter-in-Place Order, the Building Department is requiring that the following information be provided per Appendix B-1 of the Order, Small Construction Project Safety Protocol (SCP Protocol).

Project Address:			
Building Permit #:			
Designated COVID-19 Supervisor (2b):			
Supervisor Phone#:			
Supervisor email:			
Has the Designated Supervisor reviewed the SCP Protocol?	(2c):	YES	NO
Describe daily screening and cleaning/decontamination pro exiting the job-site (2d):			_
