

# 2021 Housing Element Update

Alpine County is updating the Housing Element of the General Plan to address the State's requirements for the 2019-2024 planning period and wants your input!

## What is a Housing Element?

The Housing Element is a required element of the County's General Plan and serves as a blueprint for meeting the housing needs of our residents, at all economic levels, and addressing special housing needs. The Housing Element addresses the following:

- Population, household, and housing profile that addresses our unique characteristics
- Inventory of sites suitable to accommodate the County's housing needs allocation
- Assessment of financial and programmatic resources for housing
- Analysis of fair housing issues
- Analysis of constraints, both governmental and non-governmental, to housing production
- Goals, policies, and actions to address our current and projected housing needs

## Get Involved!

We want to hear from Alpine County residents, businesses, and employees to make sure the Housing Element addresses current issues of concern and provides a vision for the future that is consistent with the community's desires. Participate in a community workshop and take the survey to let the County know your priorities, needs, and concerns related to housing issues.

### Take the Housing Element Survey

Share your ideas about housing priorities, needs, and issues by completing the survey. Take the survey online at: <https://www.surveymonkey.com/r/Alpine6thHE> or contact Zach Woods - Community Development Department (see contact information below) for a printed copy of the survey. *The survey will be open until June 30, 2021.*

For more information or if you need special assistance or disability-related accommodation, please contact:
