

## Our Promise to You

### We've been protecting California businesses for more than 100 years

Driven by our purpose to keep California working, we are fundamentally different than other workers' compensation carriers:

- We are a public enterprise and not for profit. We focus our resources on policyholders and their injured workers.
- We accept applications from any business—including startups and those in high-risk industries—ensuring that all California employers have a strong and stable option for workers' compensation insurance.
- We serve only businesses based in California and provide employers with deep local and regional expertise. We know this market better than anyone.

We support California's entrepreneurial spirit with a variety of specialized services that help sustain and support California's legacy of hard work and innovation.

Some of our services include:

- Claims Specialization
- Medical Provider Network
- Loss Prevention Services
- Online Safety Resource Center [www.SafeAtWorkCA.com](http://www.SafeAtWorkCA.com)
- Anti-Fraud Resources
- Dedicated Customer Support Center
- Toll-Free Claims Reporting Center
- Automated Billing
- Online Account Access

Let us put our experience to work for you.

***Together, we'll keep California working.***
